25X1

1. Returned herewith is the Proposed Program [] Research which you mentioned to the DD/I in your memo of 9 June 1952. DD/I has asked that you note his "somewhat tart comments". Generally, he feels that O/NE's suggestions are excellent; those of O/RR and O/SI (particularly O/SI) muddled and confused, it appearing that the offices should be doing much of the suggested work themselves. He suggests that this matter will need close attention.

2. Will you please furnish us with a clear copy of the attachment.
